## ABOUT THE **SHOCKER TRACK CLUB**

### About this Document

Carefully review this document. It contains important information for your reference during the outdoor season. Pages 1 through 8 are yours to keep. Pages 9 through 13 must be completed and returned with your registration payment.

### Who We Are

The **Shocker Track Club (STC)** was formed in 2011 and is a 501(C)(3) Non-Profit Organization as defined by the I.R.S. STC is governed by a volunteer Board of Directors. Its primary function is to provide Officials and Volunteers for Wichita State University Track and Field and Cross Country, and its own, track meets. STC additionally supports athletics teams for Youth (athletes between the ages of 5 and 19), Open (for athletes between the ages of 19 and 29), Masters (for athletes over the age of 30), and Elite (for athletes that are high achieving and typically post collegiate).

### Affiliation

**Shocker Track Club** is a USA Track and Field Member Club and a member of the Missouri Valley Association. We STRONGLY encourage all athletes to purchase a \$20 USATF membership at [www.usatf.org](http://www.usatf.org)

### Youth Track Team

The **Shocker Track Club** Youth Team operates under the auspices of the STC Board of Directors and is managed by a Director and Assistant Director that are members of the Board of Directors. STC is the only club in the region that is a USATF Member Club, can provide coaching and training in every event, is affiliated with a NCAA Division I university, and has Coaches with NCAA Division I, II, or NAIA athletic or coaching experience. Separate indoor and outdoor seasons provide opportunities for nearly eight months of training.

### Youth Team Mission Statement

The Mission of the **Shocker Track Club** Youth Team is to provide opportunities for youth to compete in track and field from an introductory level, to high-level competition, under the framework of USATF guidelines.

### Participation Eligibility

This youth program is for athletes between the ages of 5 and 19. If an athlete is also participating in a KSHSAA affiliated high school or middle school, the athlete may not participate with **Shocker Track Club** DURING the school season. Home school or Middle school athletes that choose not to participate with their school's team may participate. If your school is not KSHSAA sanctioned, the athlete can participate with Shocker Track Club.

### Financial Support Program

Athletes in need of assistance are encouraged to apply for grants through the Genesis Foundation for Fitness and Tennis. Details are available at <http://www.genesisfoundationwichita.com>

**Shocker Track Club** has developed a program to provide limited financial support for athletes in need. See the Director or Assistant Director for details.

## **2017 Shocker Track Club YOUTH Outdoor Team GENERAL INFORMATION and EXPECTATIONS**

### **Governance and Oversight**

The Shocker Track Club Youth Team operates under the auspices of the Shocker Track Club Board of Directors. Separate indoor and outdoor seasons provide opportunities for nearly eight months of training.

### **Mission Statement**

**The Mission of the Shocker Track Club Youth Team is to provide opportunities for youth to compete in track and field from an introductory level, to high-level competition, under the framework of USATF guidelines.**

### **Participation Eligibility**

This program is for youth athletes above the age of 12, and College, Open, and Masters athletes of any age. If an athlete is also participating in a KSHSAA affiliated high school or middle school, the athlete may not participate with Shocker Track Club DURING the school season. Home school or Middle school athletes that choose not to participate with their school's team may participate. If your school is not KSHSAA sanctioned, the athlete can participate with Shocker Track Club.

### **Participation Conditions for Athletes**

We have a VERY clear and specific vision and mission about what youth track and field practices should be and about what youth and adult behavior should be. Participation by the athletes and parents is strictly voluntary. Anyone who finds our vision and methods incompatible with their own should reconsider participating. Shocker Track Club is about development of character, respect, friendships and teamwork. We will NOT compromise these principles at any time. Athletes are expected to support teammates at all times. We will teach and expect positive behavior at all times. Mistreating or making fun of teammates will not be tolerated. Athletes are expected to be attentive and not disruptive. ANY disruptive behavior will result in being dismissed from practice. Continued disruptive behavior may warrant dismissal from the team.

### **Participation Conditions for Parents**

The Director and Assistant Director are in charge of the Youth program. Coaches are in charge of practices. What they say goes! If you have questions about an aspect of the program, you are strongly encouraged to contact the Youth Team Director or Assistant Director. An athlete or parent that fails to comply with the coaches' estimation of what these principles entail, will be counseled. Any repetition of behavior will result in being expelled from practice and/or from the team. When we participate in events, we expect the officials of the event to be treated with complete respect and appreciation. If there is an issue with the officials, simply contact one of the Shocker Track Club coaches. The coaches will handle ALL issues with the officials.

### **Keeping You Informed**

Brief parent meetings may be held before each practice. A team newsletter will be issued bi-monthly via email. STC maintains a website – [www.ShockerTrackClub.com](http://www.ShockerTrackClub.com), two Youth Facebook pages (Shocker TC – Youth and Shocker Track Club Youth Team), and will also have a Twitter account. If you have questions about an aspect of the program, you are strongly encouraged to contact the Youth Team Director or Assistant Director.

## KSHSAA RECOMMENDED CONCUSSION & HEAD INJURY INFORMATION RELEASE FORM 2017

### **All student athletes and parents/guardians must review this form before the student participates in any athletic practice**

A concussion is a brain injury and all brain injuries are serious. They are caused by a bump, blow, or jolt to the head, or by a blow to another part of the body with the force transmitted to the head. They can range from mild to severe and can disrupt the way the brain normally works. Even though most concussions are mild, all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly. In other words, even a “ding” or a bump on the head can be serious. You can’t see a concussion and most sports concussions occur without loss of consciousness. Signs and symptoms of concussion may show up right after the injury or can take hours or days to fully appear. If your child reports any symptoms of concussion, or if you notice the symptoms or signs of concussion yourself, seek medical attention right away.

### **What can happen if my child keeps on playing with a concussion or returns too soon?**

Athletes with the signs and symptoms of concussion should be removed from play immediately. Continuing to play with the signs and symptoms of a concussion leaves the young athlete especially vulnerable to greater injury. There is an increased risk of significant damage from a concussion for a period of time after that concussion occurs, particularly if the athlete suffers another concussion before completely recovering from the first one (second impact syndrome). This can lead to prolonged recovery, or even to severe brain swelling with devastating and even fatal consequences. It is well known that adolescent or teenage athletes will often under report symptoms of injuries. And concussions are no different. As a result, education of administrators, coaches, parents and students is the key for student-athlete’s safety.

### **Symptoms or Signs May Include One of More of the Following**

Headaches, “Pressure in head”, Nausea or vomiting, Neck pain, Balance problems, dizziness, Blurred or double or fuzzy vision, Sensitivity to light or noise, Feeling sluggish or slowed down, Feeling foggy or groggy, Drowsiness, Change in sleep patterns, Amnesia, “Don’t feel right”, Fatigue or low energy, Sadness Nervousness or anxiety, Irritability, More emotional, Confusion, Concentration or memory problems, (forgetting game plays), Repeating the same question or comment, Appears dazed or vacant facial expression, Confused about assignment, Forgets plays Is unsure of game, score, or opponent, Moves clumsily or displays incoordination, Answers questions, slowly, Slurred speech, Shows behavior or personality changes, Can’t recall events prior to hit or after hit, Seizures or convulsions, Any change in typical behavior or personality, Loses consciousness.

### **If you think your child has suffered a concussion**

Any athlete even suspected of suffering a concussion should be removed from the game or practice immediately. No athlete may return to activity after sustaining a concussion, regardless of how mild it seems or how quickly symptoms clear, without written medical clearance from a Medical Doctor (MD) or Doctor of Osteopathic Medicine (DO). Close observation of the athlete should continue for several hours. You should also inform your child’s coach if you think that your child may have a concussion Remember it is better to miss one game than miss the whole season. When in doubt, the athlete sits out!

### **Cognitive Rest & Return to Learn**

The first step to concussion recovery is cognitive rest. This is essential for the brain to heal. Activities that require concentration and attention such as trying to meet academic requirements, the use of electronic devices (computers, tablets, video games, texting, etc.), and exposure to loud noises may worsen symptoms and delay recovery. Students may need their academic workload modified while they are initially recovering from a concussion. Decreasing stress on the brain early on after a concussion may lessen symptoms and shorten the recovery time. This may involve staying home from school for a few days, followed by a lightened school schedule, gradually increasing to normal. Any academic modifications should be coordinated jointly between the student’s medical providers and school personnel. No consideration should be given to returning to physical activity until the student is fully integrated back into the classroom setting and is symptom free. Rarely, a student will be diagnosed with post-concussive syndrome and have symptoms that last weeks to months. In these cases, a student may be recommended to start a non-contact physical activity regimen, but this will only be done under the direct supervision of a healthcare provider.

### **Return to Practice and Competition**

The Kansas School Sports Head Injury Prevention Act provides that if an athlete suffers, or is suspected of having suffered, a concussion or head injury during a competition or practice, the athlete must be immediately removed from the competition or practice and cannot return to practice or competition until a Health Care Professional has evaluated the athlete and provided a written authorization to return to practice and competition. The KSHSAA recommends that an athlete not return to practice or competition the same day the athlete suffers or is suspected of suffering a concussion. The KSHSAA also recommends that an athlete’s return to practice and competition should follow a graduated protocol under the supervision of the health care provider (MD or DO).

For current and up-to-date information on concussions you can go to:
