Coach Rainbolt,

It is the understanding of the Athletics Department of Wichita State University that efforts are underway to develop and form an organization to provide operational and financial support to the Track and Field and Cross Country athletics teams of Wichita State University. This new organization will be a separate from the University and operate under by-laws with governance by a Board of Directors. It is the understanding that the name of the organization will be "Shocker Track Club." The Athletics Department of Wichita State University grants permission to the organization to use "Shocker" in its official name.

John Brewer

Director of Marketing

Wichita State University Athletics
